

A Transformative Vision for the Future of Transit in Baltimore

WHAT IS THE PLAN?

Governor Larry Hogan recently announced \$135 million in targeted investments to transform and improve transit throughout the Baltimore metropolitan area. The multi-phase plan will create an interconnected transit system, known as BaltimoreLink, and will redesign the entire local and express bus systems throughout Baltimore. BaltimoreLink will include CityLink, 12 new high-frequency, color-coded bus routes that improve connections to jobs and other transit modes. The full plan starts June 2017.

WHAT IS BALTIMORELINK?

The BaltimoreLink system will deliver a unified transit network and includes renaming existing Maryland Transit Administration (MTA) modes: LocalLink (Local Bus), Light RailLink, Metro SubwayLink and MobilityLink to create an interconnected transit system. Other key elements of the BaltimoreLink system include transitways, transit hubs and transit signal priority.
