

A Plan to Connect Baltimore

LINKING YOU
MTA Maryland Maryland Department of Transportation

What is BaltimoreLink?

- **Improve** service quality and reliability
- **Maximize** access to high-frequency transit
- **Strengthen** connections between the MTA's bus and rail routes
- **Align** the network with existing and emerging job centers
- **Involve** riders, employees, communities, and elected officials in the planning process

Customer Service

Existing Service

We've heard the existing transit system is...

- Broken
- Disconnected
- Crowded
- Unclean
- Unreliable
- Not connected to jobs

Major Problems:

- **Lengthy Routes** – Long east-west and north-south routes
- **Highly Congested** – Buses bottleneck due to network design
- **Unreliable** – Network design hinders MTA's ability to provide reliable service

The Solution - The BaltimoreLink Network

- **High-frequency** routes into and throughout urban core
 - Color-coded routes
 - All lines access Downtown
 - 24 hours of service per day
 - Designed to connect to all other CityLink routes and to Rail Stations

- **Local** Routes connecting to CityLink routes
 - Neighborhood connectivity
 - Suburb-to-urban core connectivity

- **Limited stop** routes into urban core and suburb-to-suburb
 - Connecting to Regional Job Centers and Downtown

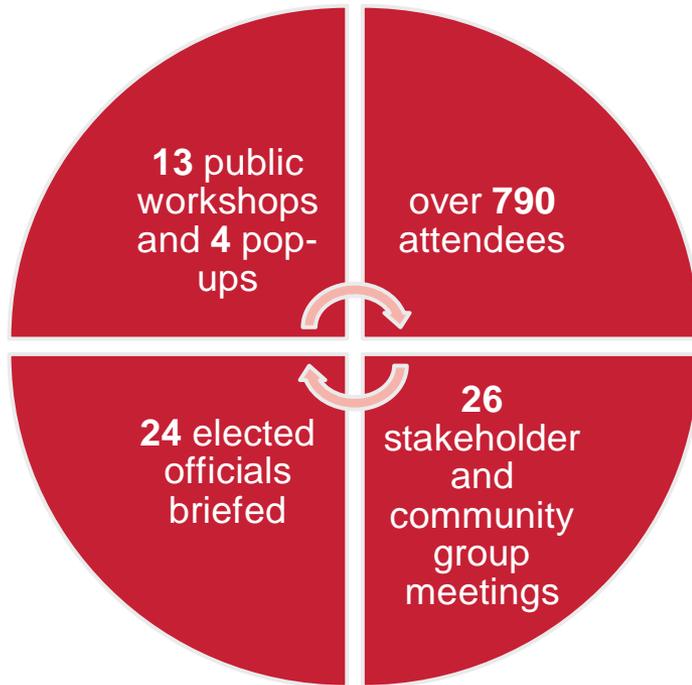

To be integrated seamlessly with:

1st Draft Outreach

October 2015 – February 2016

- BaltimoreLink Outreach built upon the effort accomplished as part of the 2013 Baltimore Network Improvement Project (BNIP)
- MTA gathered over 1,280 comments from 67 key events

1st Draft Outreach

Comment Submittal and Topic

61% submitted online
(mySideWalk or Survey Monkey)

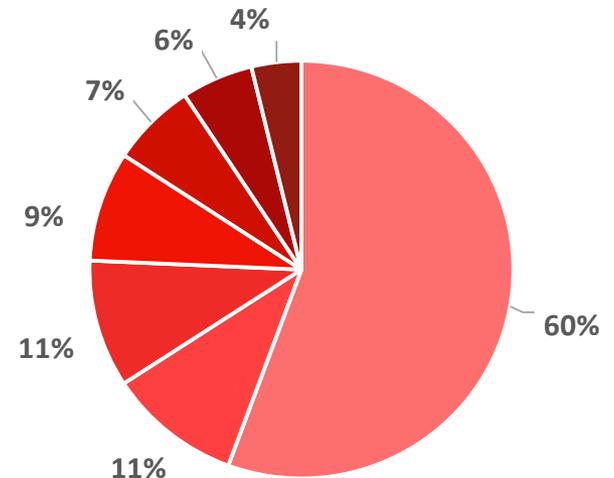

24% submitted comment form

15% submitted in other formats
(hotline, email, verbal, or other)

- The majority of comments were about specific routes, forced transfers, and safety/cleanliness of the proposal

- Specific BaltimoreLink Route Proposal
- Forced Transfer
- Safety/Cleanliness
- Information/ Resources
- New Service Area Request
- Schools/School Children
- Other

Public Impact on 2nd Draft

You spoke. We listened.

We adjusted **56 of the 65** first draft routes as a direct response to public feedback.

The **2nd Draft** BaltimoreLink network reflects some modifications that the public desires while maintaining the new hub and spoke, high-frequency core model

Public Impact on 2nd Draft – Significant Changes

- **Greenmount Ave.** (Current Route 8 and 48) – reintroducing CityLink Red to serve the entire corridor
- **Garrison Blvd. and Edmondson Ave.** (Current Routes 91 and 15) – reintroducing connection to downtown
- **Eastern Ave.** (Current Route 10) – reintroducing CityLink Navy to serve Eastern Ave. in Highlandtown
- **Express Services** Reintroducing current routes 103, 115, 119, 120 and 160
- **Falls Rd, Roland Ave., N. Charles St., and Philadelphia Rd.** (Current routes 27, 61, 11, 35) – reintroducing existing services
- **North Ave.** (Current Route 13) – Corridor-long CityLink Gold service
- **Harford Rd.** (Current Route 19) – reintroduced as LocalLink 19
- **Patapsco Station and Annapolis** (Current Route 14) – keeping a one seat ride
- **White Marsh Mall and Middle River** – (New LocalLink 61) New one-seat ride
- **Curtis Bay** (Current Route 64) – Improved transfers to Light Rail
- **Southwest and Northeast Baltimore** (Current Route 36) – Improved connections between CityLinks Yellow and Green

Measuring the New System

■ Partners:

- Baltimore Metropolitan Council (BMC)
 - Method: Regional travel demand model
 - Measured: Transfers, travel time and access to jobs
- Maryland Department of Planning (MDP)
 - Method: GIS mapping
 - Measured: Frequent Transit Network and population group access to human services

What Will Not Change

You spoke. We listened.

Minimal Change to Daily Transfer Rate

With the BaltimoreLink system, the average daily transfer rate in the region changes by less than 2%.

53% Of trips will require zero transfers.

35% Of trips will require one transfer.

12% Of trips will require two or more transfers.

Average Transit Travel Time of 52 Minutes

On average, a transit trip will take 52 minutes under BaltimoreLink, including time to access the bus stop, waiting time, time on the vehicle, and any necessary transfers. This is the same average transit travel time as on the current MTA system.

The transfer rate measurement is based off of ridership patterns and is driven by a projected increase in mid-day trips.

Additionally, the transfer experience under BaltimoreLink will be eased with better frequencies on many routes, increased reliability, and improved wayfinding.

What Will Improve

Increasing Access to Transit

33,600 More People with Access to Transit

Under BaltimoreLink, an estimated 33,600 additional people – a 4% increase over the existing system – will be within 1/4 mile of transit.

60,700 More People with Access to Frequent Transit

Under BaltimoreLink, an estimated 60,700 additional people – a 15% increase over the existing system – will be within 1/4 mile of the frequent transit network. **The Frequent Transit Network is defined as any BaltimoreLink (CityLink and select LocalLink) route that operates every 15 minutes or less during peak and midday periods.**

What Will Improve

Increasing Access to Jobs

Households will have Better Access to Jobs

Within the MTA service area, the average number of jobs accessible within 30 minutes on transit increases by 20%. The average number of jobs accessible within 45 minutes increases by 12%, and the average number of jobs accessible within an hour increases by 8%.

+20%

More jobs, on average, are accessible within 30 minutes or less.

+12%

More jobs, on average, are accessible within 45 minutes.

+8%

More jobs, on average, are accessible within 60 minutes.

34,400 More Jobs will have Access to Frequent Transit

Under BaltimoreLink, an estimated 34,400 additional jobs – a 14% increase over the existing system – will be within 1/4 mile of the Frequent Transit Network.

+22%

What Will Improve

Increasing Accessibility

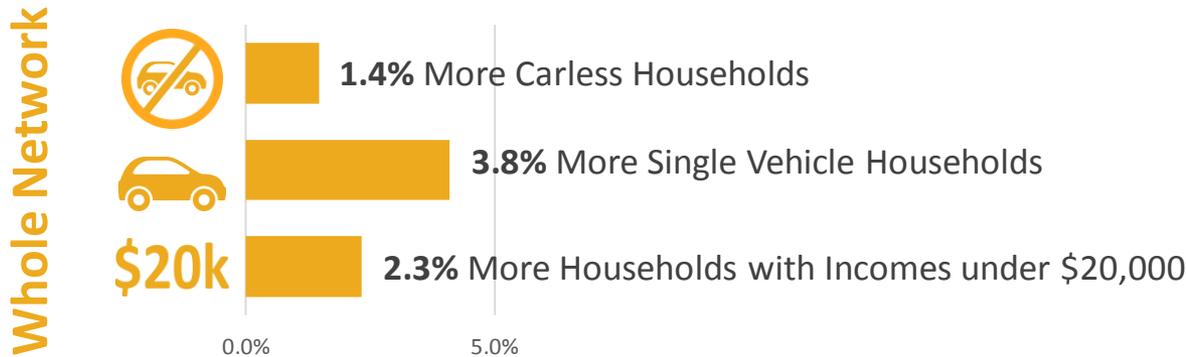

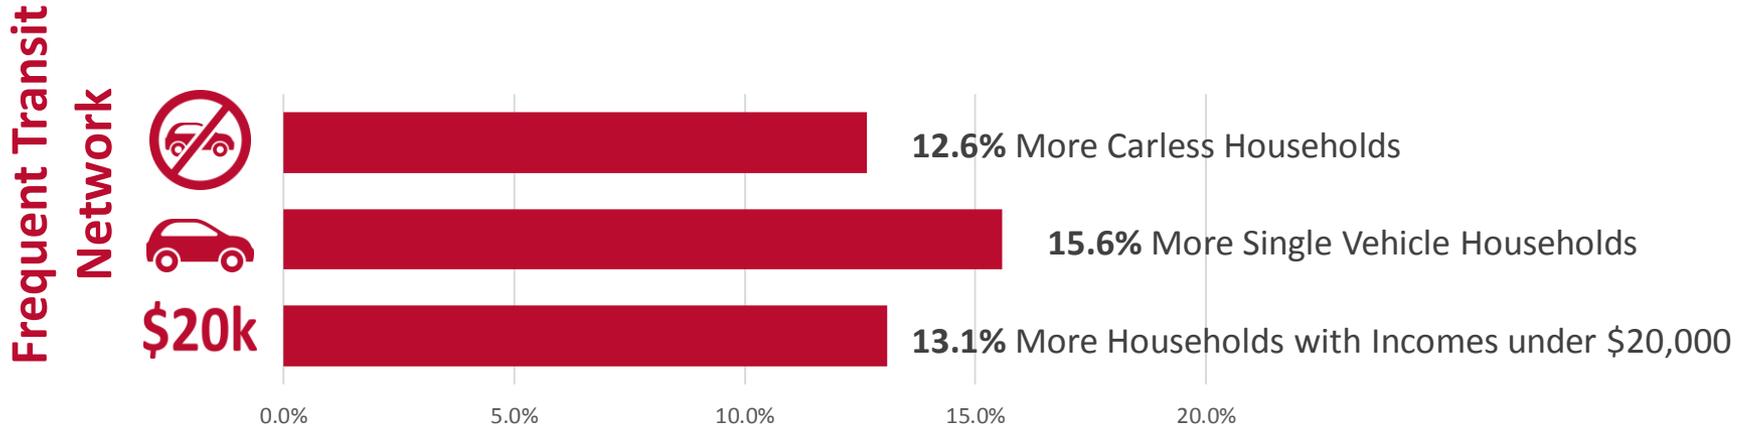

CHANGE IN PERCENT OF POPULATIONS WITHIN ¼ MILE OF BALTIMORELINK

What Will Improve

Increasing Accessibility

CHANGE IN PERCENT OF HOUSEHOLDS
WITHIN ¼ MILE OF BALTIMORELINK

What Will Improve

Preserving Daily Transfer Rate and Travel Times

33,600 More People with Access to Transit

Households will have Better Access to Jobs

Better Access to Services in the Region

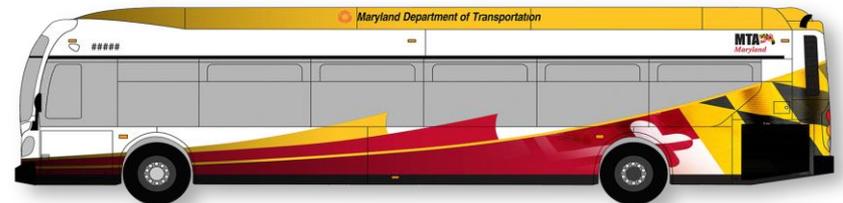

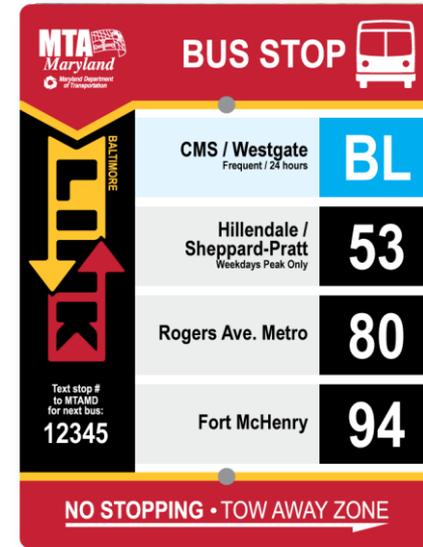

What Will Improve

Bus Stop Signage

- New signage will provide better destination information in a clear, easy-to-use fashion

Bus Vehicle Branding

- New buses with BaltimoreLink branding will make the system more uniform with cohesive design and color elements

What Will Improve

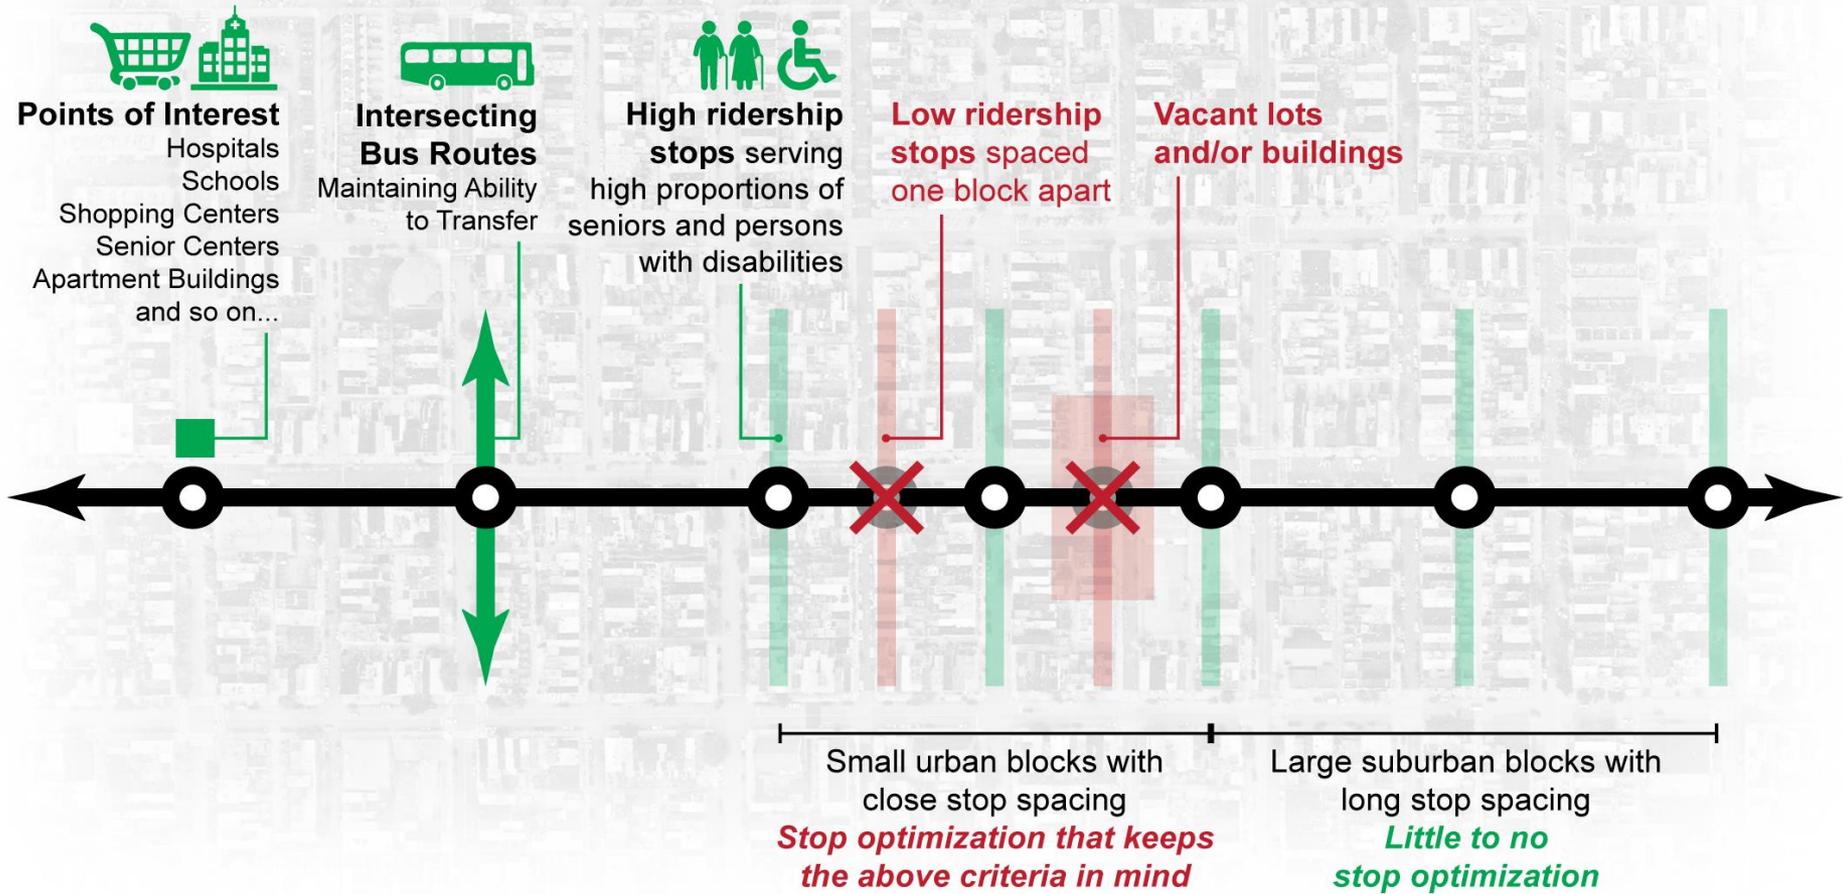

Bus Stop Optimization

- Spacing
 - Industry standards corresponding with density, land use and route type
 - Exceptions based on trip generators (medical centers, assisted living facilities, etc.)
- Pedestrian Safety
 - Examining curb ramps, crosswalks, sidewalks, lighting, etc.
 - ADA Compliance
- Amenities
 - Shelters
 - Collaboration with partners (City for benches, SHA for trash cans)

MTA is currently performing field assessments of existing and proposed bus stops. Pending network modifications, a final list will be available this fall.

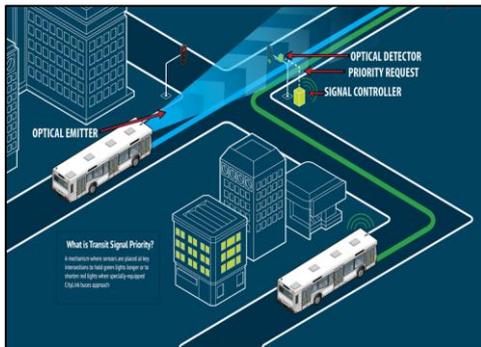

What Will Improve Bus Stop Optimization

What Will Improve Capital Investments

- ✓ Making the System More Reliable
- ✓ Helping Buses Move More Efficiently
- ✓ Improving the Customer Experience

Transit Signal Priority

- Hardware and software to enable active priority for buses
- Approaching buses can trigger a shorter red light or longer green light
- Focusing on CityLink corridors and major pinch points

Dedicated Lanes

- Red painted lanes and “BUS LANE” striping
- Focusing on corridors with multiple CityLink routes to keep people moving

Transfer Facilities

- Transit facilities, transfer areas, layovers, and optimized bus stops
- Improved or new signs, schedules, trash bins, benches, shelters, canopies, TVMs, and other amenities

What Will Improve Capital Investments

Transfer Facility Locations

- West Baltimore MARC station
- North Ave between Charles and St. Paul
- Penn-North Metro Station
- Courthouse (Broadway/Harford)
- Bayview Hospital
- Charles Center Metro Station
- Lexington Market (Eutaw St)
- Penn Station
- State Center
- North Ave Light Rail Station

Possible Amenities

Streetscape improvements for pedestrian safety

Improved signage to facilitate wayfinding and ease transfers

Real Time Information Signage so riders know when buses will arrive

Sheltered waiting areas to protect riders from the elements

Ticket vending machines to allow riders to pre-purchase fare cards

Improved bicycle storage

Enhanced lighting and ornamental fencing to increase safety and security

Closed-circuit television cameras to increase rider safety

Trash receptacles

Note that photos are for illustrative purposes only and do not necessarily represent actual transfer facilities.

What Will Improve

Increasing Transportation Options

Bike Share – Baltimore City’s Bike Share provider, Bewegen, will be rolling out Bike Share as early as September 2016 with locations at or adjacent to about 10 MTA rail facilities. Additionally, MTA is improving bike parking at all rail stations.

Car Share – To be added to more than 20 MARC Train, Light RailLink, and Metro SubwayLink parking facilities

Commuter Bus – 3 new routes that connect Baltimore City residents to regional employers

- New service between Baltimore and Aberdeen Proving Ground
- New service between Baltimore and Annapolis/Kent Island
- New service between Baltimore and Columbia/Howard County

Locally Operated Transit Support – Increasing funding where improved, local connections are needed.

- **Charm City Circulator** – Increased funding for three years
- **Fort Meade Shuttle** – Additional funding for the Regional Transit Authority (RTA) to operate a shuttle connecting the Savage and Odenton MARC Stations.

Microtransit – A pilot program of this emerging, scaled down version of mass transit that provides a shared, on-demand, and tech-enabled ride.

Local Analysis – Feedback on First Draft

What we heard about the first draft:

- Remove service from Milton Ave and from Linwood Ave between the two portions of Patterson Park
 - ✓ LocalLink 22 (replacement for the Highlandtown branch of the 13) modified to operate via Linwood, Baltimore, and East similar to the current 13 branch
- Remove service from Orleans and Baltimore Streets
 - ✓ CityLinks Orange and Blue modified to operate via Fayette similar to the current 23 and 40
- Remove service from Fleet Street
 - ✓ LocalLink 22 modified as described above
- Reintroduce continuous downtown service to Eastern Ave
 - ✓ CityLink Navy modified to operate via Eastern similar to the current 10

Local Analysis – Current 10

Current Service:

MTA 10:

Rte. 40 Plaza or
Paradise to Dundalk or
Bullneck Rd.

Proposed Service:

MTA 10 ➔ CL Navy:

Mondawmin to
Dundalk or Bullneck Rd.

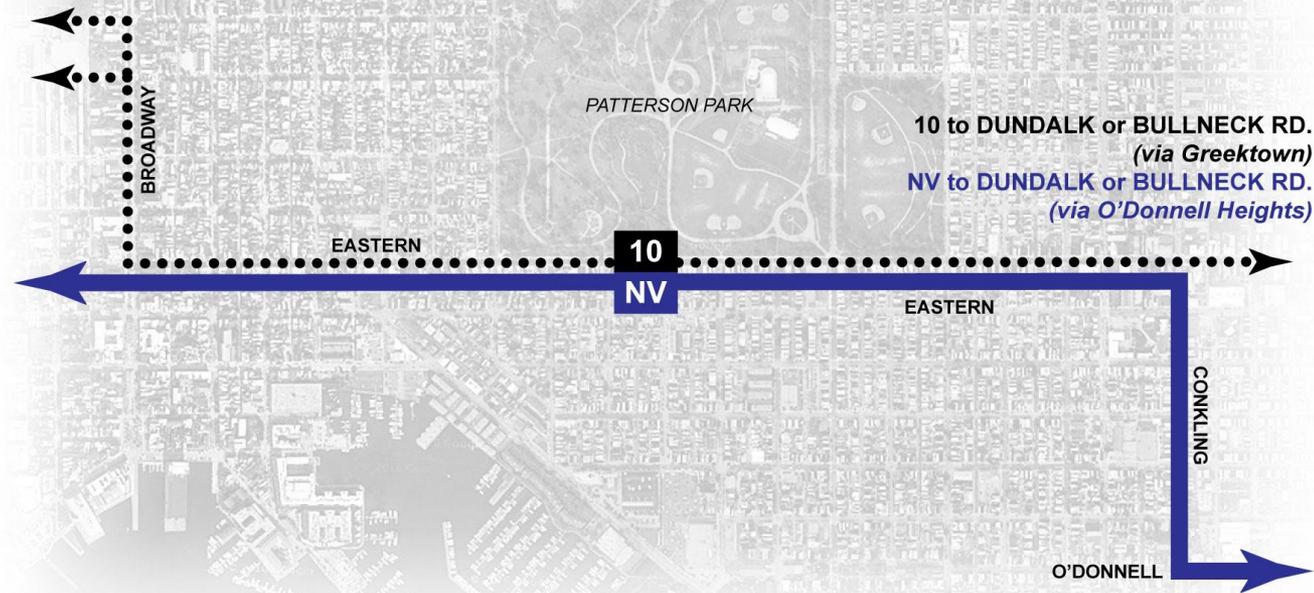

*(Transfer to Purple
downtown to continue
to Paradise or Rte. 40
Plaza)*

LEGEND FOR LOCAL ANALYSIS MAPS:

Dotted black lines indicate existing routes ●●●●●●●●

Solid color lines indicate
replacement BaltimoreLink routes

10 to PARADISE or RTE. 40 PLAZA
NV to MONDAWMIN
*(transfer to Purple downtown
to go to Paradise or Rte. 40 Plaza)*

10 to DUNDALK or BULLNECK RD.
(via Greektown)
NV to DUNDALK or BULLNECK RD.
(via O'Donnell Heights)

Local Analysis – Current 13

Current Service:

MTA 13:

Walbrook Junction to Gay Street or Canton Crossing

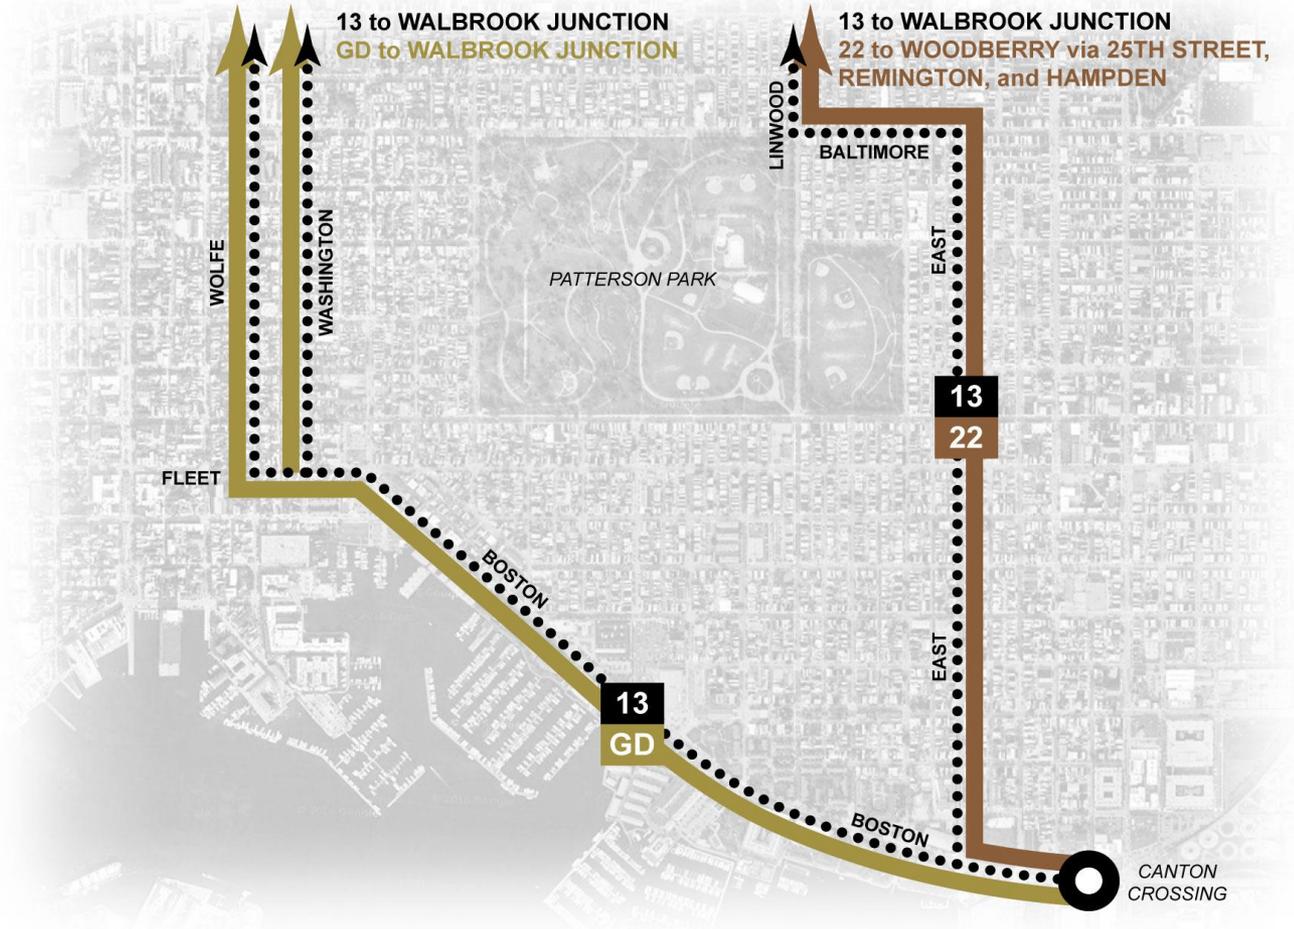

Proposed Service:

MTA 13 → CL Gold & LL 22:

CL Gold: Walbrook Junction to Gay St. or Canton Crossing

LL 22: Woodberry to Canton Crossing

(LL 22 offers new crosstown service between Hampden, Lower Charles Village, and Canton via 25th Street)

MTA Maryland Maryland Department of Transportation

BALTIMORE
LINK

Local Analysis – Current 22

Current Service:

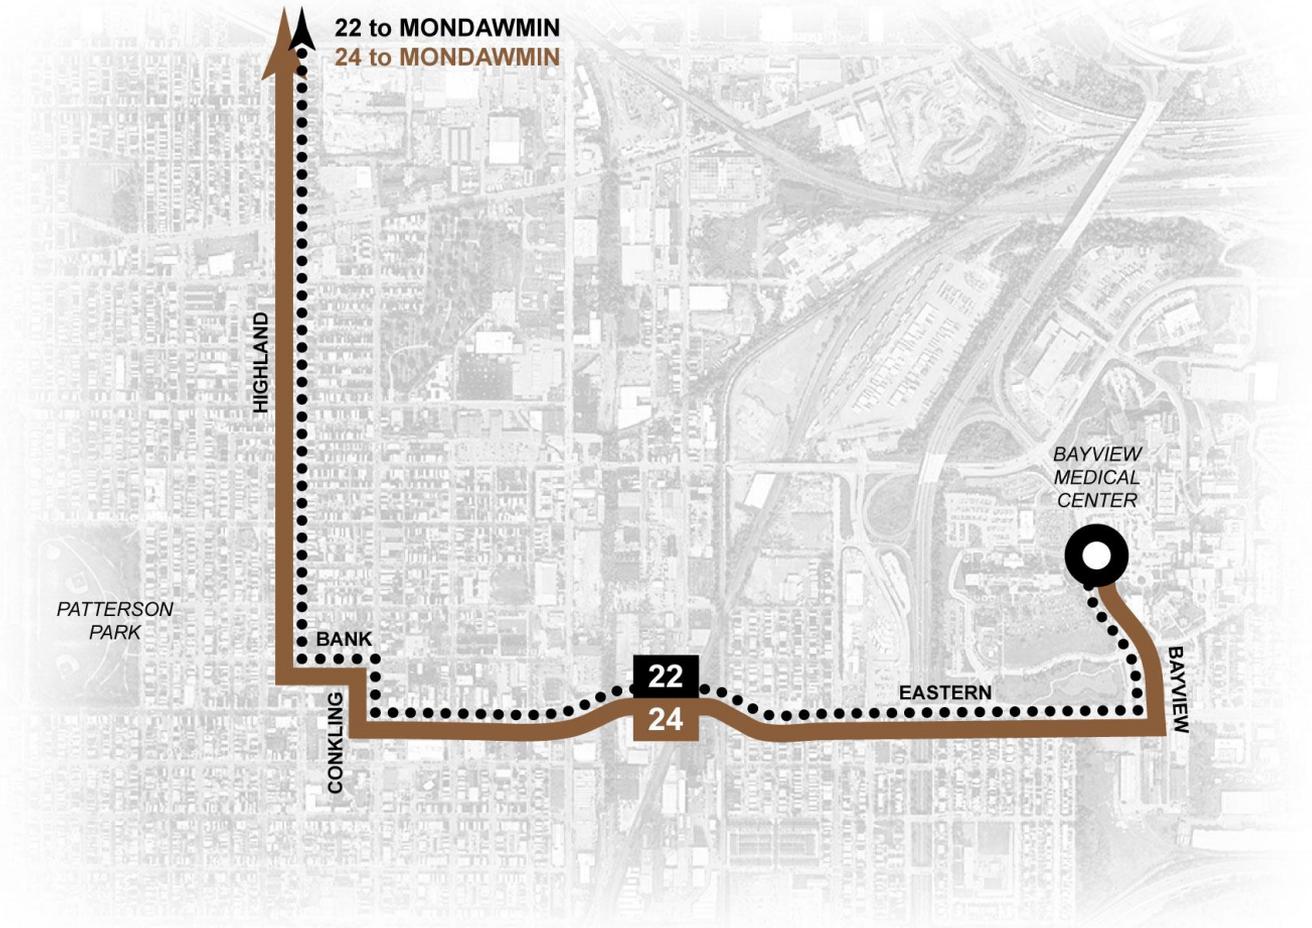

MTA 22:

Mondawmin to
Bayview Medical Center

Proposed Service:

MTA 22 = LL 24:

Mondawmin to
Bayview Medical Center

LINKING YOU

MTA Maryland Maryland Department of Transportation

BALTIMORE
LINK

Local Analysis – Current 26

Current Service:

MTA 26:

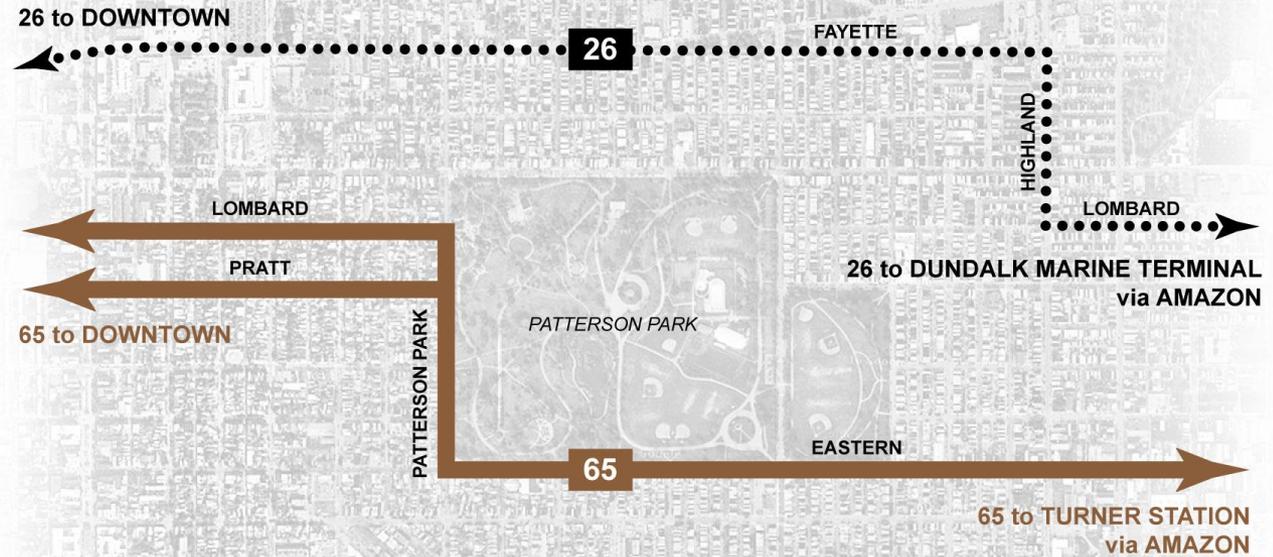

Downtown to Dundalk Marine Terminal via Amazon

Proposed Service:

MTA 26 → LL 65:

Downtown to Turner Station via Amazon

(Routing in southeast Baltimore shifts from Fayette to Pratt/Lombard and Eastern)

Local Analysis – Current 23 and 40

Current Service:

MTA 23:

Rte. 40 Plaza or Edmondson Village to Fox Ridge

MTA 40:

CMS to Middle River

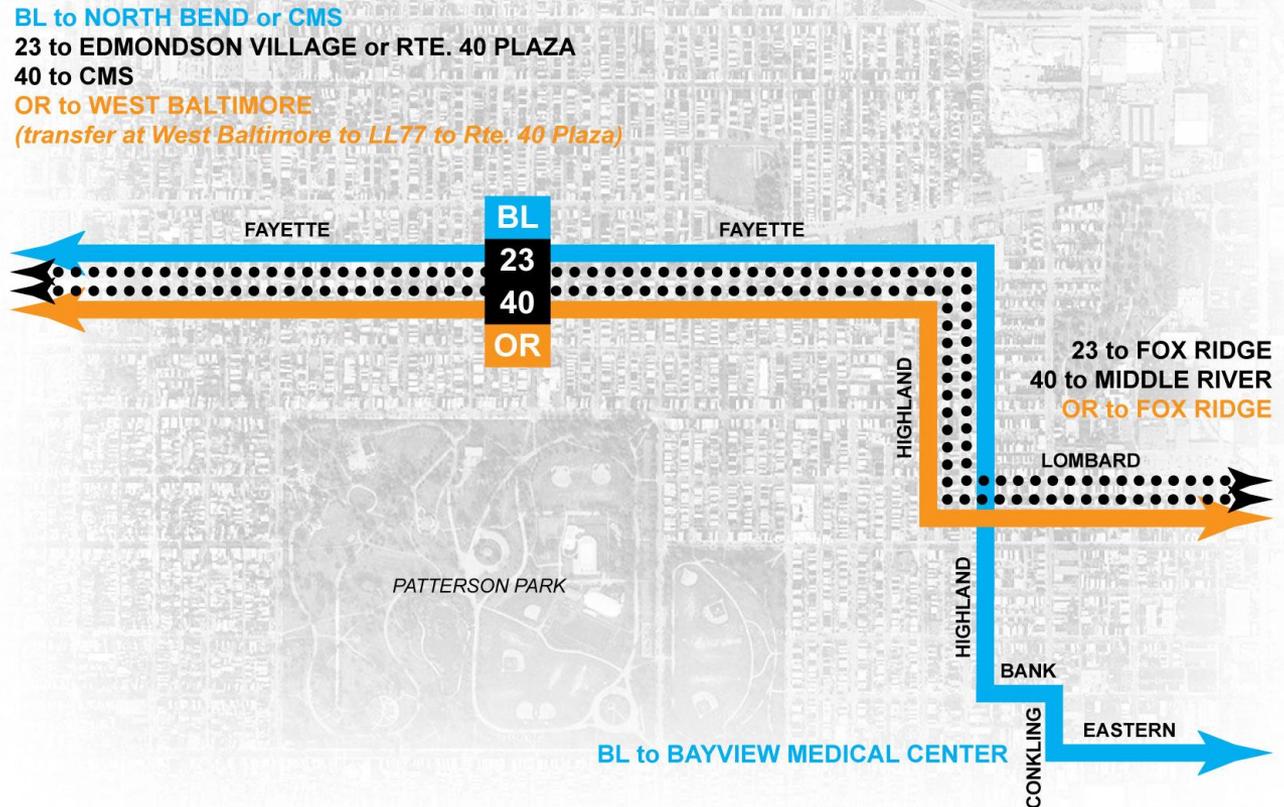

Proposed Service:

MTA 23 → CL Orange:

West Baltimore to Fox Ridge

MTA 40 → CL Blue:

CMS or North Bend to Bayview Medical Center

Local Analysis – Current 7 and 31

Current Service:

MTA 7:

Mondawmin to Canton Crossing

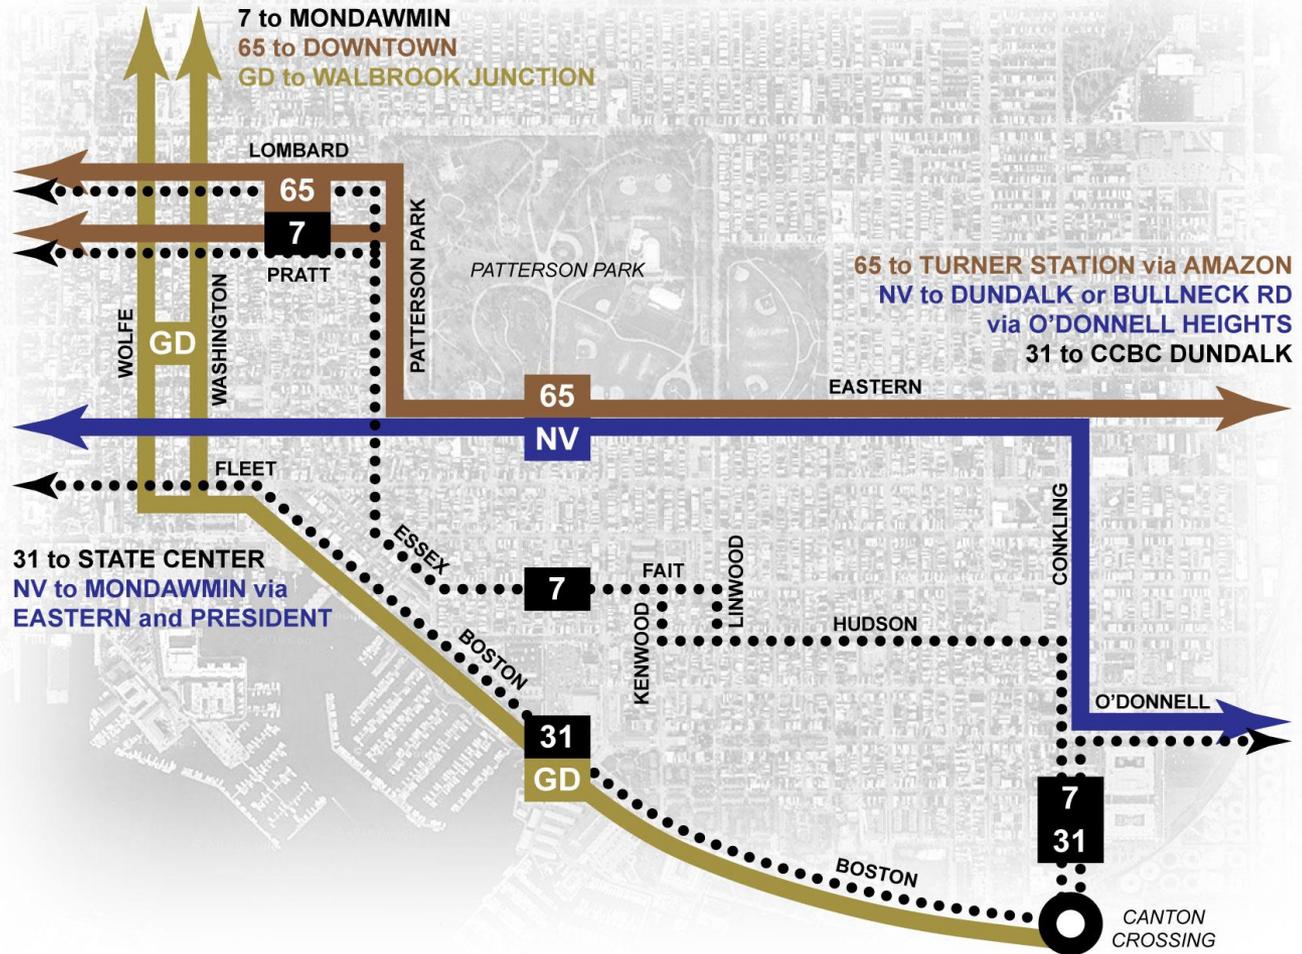

MTA 31:

State Center to CCBC
Dundalk

Proposed Service:

MTA 7 and MTA 31 discontinued

(Portions will be absorbed into other routes; i.e. Butcher's Hill portion of 7 into LL 65 and O'Donnell Heights portion of 31 into CL Navy)

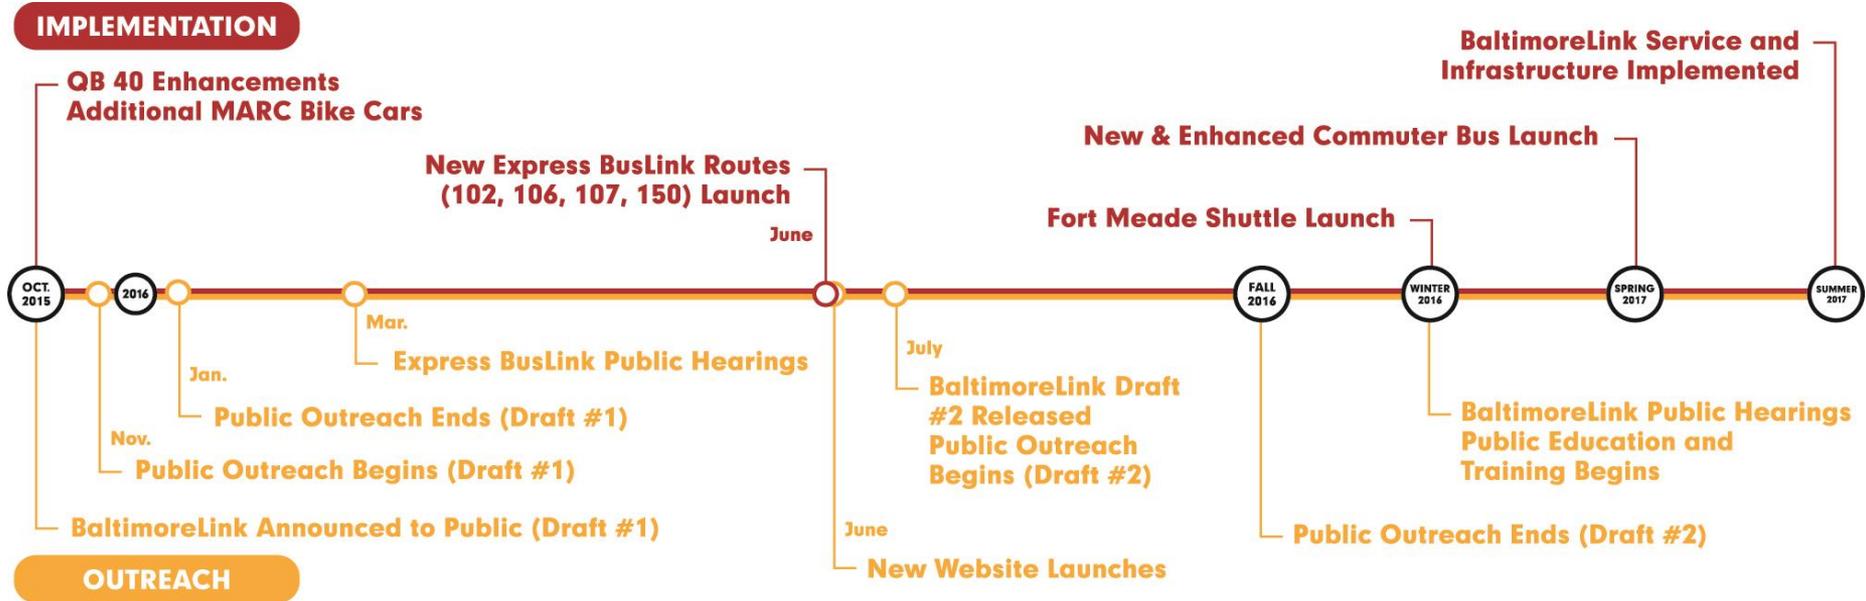

Local Analysis – Feedback on Second Draft

What we heard about the second (current) draft:

- Lack of direct service to downtown and Harbor East via Boston and Fleet Streets (currently provided by the 31)
 - CL Navy would provide better access to Harbor East by staying on Eastern till President, rather than turning onto Broadway (like the current 10)
 - Considering ideas to possibly modify another route(s) to serve this area
- Lack of direct service to downtown via Fait Ave and Hudson Street (currently provided by the 7)
 - Considering ideas to possibly modify another route(s) to serve this area

BaltimoreLink Project Timeline

More Ways to Learn About Your Route

You spoke. We listened.

DRAFT

Route	Green
Type	CityLink
From	Towson Town Centre
To	Westbelt, near MARC
Span	Weekday: 4:00am - 8:00pm Saturday: 6:00am - 8:00pm Sunday: 8:00am - 8:00pm
Frequency (Weekday)	Early AM Peak Midday PM Peak Evening Late Night
Frequency (Saturday)	Day (8:00am - 8:00pm) Other Times
Frequency (Sunday)	Day (8:00am - 8:00pm) Other Times
Rail Stations Served	Metrolink, University Center, MARC, Westbelt
CityLink Transfers	Metrolink, University Center, MARC, Westbelt
Points of Interest Served	Morgan State University, USD
Current Routes	

PROPOSED CITYLINK GREEN

LEGEND

- Rail Stations: Metrolink, University Center, MARC, Westbelt
- Connecting Routes: CityLink, LocalLink, Express BusLink
- Proposed Alignment: Proposed CityLink, Proposed Light Rail/Link, Proposed BaltimoreLink Routes
- MARC: MARC
- Other: Other Roadways

MTA Maryland Maryland Department of Transportation LINKING YOU

What is a Route Sheet?

- Route specific information on route alignment, levels of service and other valuable information

What details are provided?

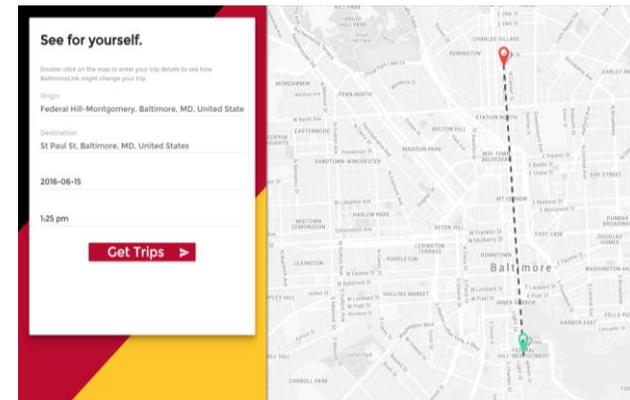

- Route name
- Route type
- Route end points
- Span of service
- Service frequency (M-F, Sat & Sun)
- Connections to rail and CityLink services
- Points of interest served
- Current routes
- Route Map

More Tools to Help You

You spoke. We listened.

Trip Planner

- Compare existing street routing for a given route side-by-side with its BaltimoreLink replacement. Double-click on the map for origins and destinations, or type these in manually

Google Map

- Interactive Google system map allows you to zoom in on the updated network and view various routes and their frequencies

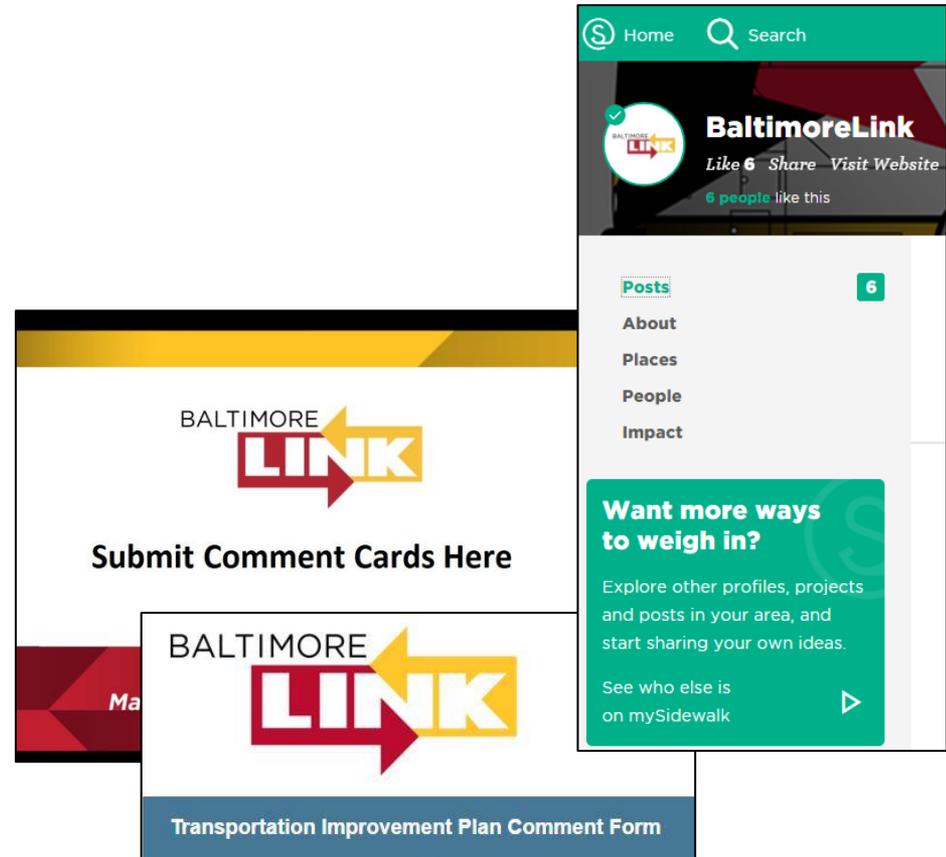

New Website

- Access BaltimoreLink information easier by reading project updates, finding events in your area and downloading presentations and reports

How to Get Involved

1. Attend a public workshop
2. Call the Hotline: 410-454-1998 and leave us a message
3. Engage in discussions on mtamaryland.mysidewalk.com
4. Compare your transit trips with the BaltimoreLink comparative trip planner
5. Submit a comment on BaltimoreLink.com
6. Spread the word!

Thank You!

- Stations are set up with staff on hand to answer questions one on one about individual routes, the network system, and your future trips.
- Handouts are available at the sign-in table – take a few and share with your neighbors, coworkers, and family!
