

# 36 Line: Twin Springs Road Deviation

- Current Route 36
- MARC
- MARC Stations
- Metro
- Metro Subway Stations
- Light Rail
- Light Rail Stations

## Summary of Changes

Currently, the 36 Line operates a 1.2-mile deviation onto Twin Springs Lane off Washington Boulevard on every trip in order to serve the South Baltimore County Medical Center (a.k.a. Kaiser Permanente). The deviation has been in effect for over one year, with the majority of riders using the service between 5:30 am and 8:00 pm.

To improve the efficiency of the 36 line and to reduce the delay incurred by passengers who do not wish to access Kaiser Permanente, trips will now only operate the deviation between the hours of 5:40 am and 8:00 pm on weekdays and between 7:00 am and 8:00 pm on weekends. One exception to this plan will be that the last northbound and southbound weekday trips (which occur around 1:30 AM) will serve Kaiser to accommodate workers at the facility. In addition, when the deviation is in effect, only every other trip will operate the deviation. This will result in a 30-minute frequency during peak periods and a 60-minute frequency during the midday period.

## Service Levels Changes

Twin Springs Rd Service (Kaiser)			
		Proposed Service	Current Service
Span	Weekday	5:40a-8:00p*	4:30a-1:30a
	Saturday	7:00a-8:00p	5:40a-1:00a
	Sunday	7:00a-8:00p	5:00a-2:00a
Frequency (in minutes)	Weekday Peak	30	15
	Weekday Midday	60	30
	Weekday Evening	40	30
	Weekday Late	-	40
	Night		
	Saturday	60	30
	Sunday	60	30

Addresses BNIP goal of improved network efficiency and effectiveness.

\*Plus the last northbound and southbound trip to accommodate workers at the facility.
